Scale 1:20

CAT[®]

Realism Redefined.

**GENUINE CAT[®] RADIO CONTROL
1:20 SCALE DIECAST EXCAVATOR**

Real Replicas

*Our new 1:20 scale diecast RC model in the backyard
or the full-size excavator on a construction site?
It can be hard to tell, but this is a real 330D L.*

Accurate in Every Detail.

LICENSED CAT® PAINT AND DECORATION. MOVEMENTS JUST LIKE THE REAL MACHINE.

The 300 series marked the dawn of the modern era in Cat® excavators. 320, 325 and 330 machines, the first introductions, set the stage for over 60 Cat excavator sizes available today – all displaying 300 series nomenclature.

No machine stands more proudly than the Cat 330D L, the “L” referring to a long undercarriage design for improved traction and stability.

With an operating weight of more than 35 metric tons, the 330D L raised the bar for the 30 ton excavator class and created an easy transition to the Cat 336D nomenclature.

Now, we proudly present our Cat 330D L replica in 1:20 scale radio control diecast metal. Place your hands on the realistically presented RC controls. You will instantly feel the power and precision that have made Caterpillar the world's largest and most respected name in earthmoving!

*Multi-channel remote actuates
movements nearly identical
to those of the real machine.*

Visually Stunning.

- Genuine Caterpillar® Yellow paint, a color available only to licensees of Caterpillar Inc.
- Copyrighted “Power Edge” trade dress reflects look of 330D L machine built between 2006-2008.
- All decoration and nomenclature elements on the model are taken from real machine films provided by Caterpillar.

Functionally Precise.

- Individual boom, stick and bucket movements follow the real 330D L.
- Exacting track control for forward, reverse and steering actions.
- 360 degree rotation on axis allows realistic dig, carry and dump operations.
- Sound package mimics engine; track movements; swing movements; boom, stick and bucket movements.

Each Dimension Carefully Scaled.

Standing still or in motion, the new Diecast Masters RC model replicates the size and reach of the real Cat® 330D L, at 1:20 scale.

178 mm – 7 in.

520 mm – 20½ in.

200 mm – 7¾ in.

182 mm – 7¼ in.

250 mm – 9¾ in.

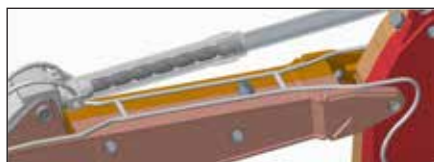

480 mm – 18¾ in.

Perfection, From Every Angle.

Robust Mechanics for Strength and Durability.

- Precision cut metal gear set.
- Machined roll-screw, ball bearing transmission.
- Heavy diecast metal components.
- Model weight: 5.6kg, nearly 12½ pounds.
- Efficient motors and deep-draw battery provide a full hour of play time.
- Battery recharges in three hours using supplied USB cable.

Sturdy cardboard package with foam insert protects model in transit and storage. Convenient carrying handle included.
