Scale 1:50

10 1/4 x 3 1/4 x 4 1/2 in.
260 x 82 x 114 mm

Still a favorite in any fleet, the Cat® 365B L Series II is at home in construction and demolition jobs, as well as mass excavation applications, quarries and mines. Powered by a Cat 3196 engine producing 404 hp (302 kw) this machine has the power and lift capacity to keep any operation running day after day.

This Core Classics model is one in a series made up of the most popular diecast models ever made and pays homage to the vast legacy of Cat® machines in the field. Packaging is reminiscent of the "plain brown" parts boxes with which machine owners and operators are so familiar.
